

Finger Lakes Fiber Arts Festival

General Vendor Guidelines

- 1) Fees are based on the basic standard of 10x12 booth size. However, the square footage of the booth footprint is what is actually being “rented” for the festival. So, some booths may differ slightly in shape. There are also some “odd” booth sizes at the festival with prorated fees.
- 2) In fairness to all vendors, regardless of location, you must stay within the boundaries of your rented space. There will be festival staff checking on compliance throughout the weekend. If you fail to comply, you may forfeit your reserved space for next year’s festival.
- 3) Every barn booth space will be charged a basic fee per booth. If you are bringing animals, you will receive a discounted rate for the 2nd OR 3rd booth space.
- 4) Vendors occupying end booth space in either barn have the option to rent the rain protection space (3 - 5 ft) for use as vending space for an additional fee of \$ 25. This fee is NOT refundable if it rains. The vendor assumes the risk of inclement weather as do outdoor vendors.
- 5) Audio/video equipment may be used to demonstrate your products as long as the volume is not offensive to your neighbor vendors. Entertainment audio/video equipment is considered a distraction from the ambiance of our festival and is, therefore, NOT allowed during the festival hours in the fiber-related vending areas.
- 6) Any questions or concerns may be directed to the vendor coordinator or her designee.
- 7) Returning vendor registration forms/checks will be accepted at the current festival OR may be mailed in before the deadline of January 15th of the new festival year. The vendor coordinator will be making rounds throughout the festival.
- 8) NO PETS ALLOWED at the festival!!!!!!!

Fee Schedule for Fiber Related Vendors
